

DATASHEET VIDEO

Our requirements on your video data

Playback on a monitor

- Format: MP4 (MPEG-4 Part 14)
- Frames per second: 30 - frames per second (30-fps)
- Aspect ratio: 16:9
- Resolution: up to 4K (3840 x 2160 pixels)

Playback on a LED-wall

Since our rented LED walls are always different, the requirements also vary depending on the supplier.
Once we have contracted an external service provider, you will receive the specific requirements from us in time.

Send your data to
Kevin Röhlig (roehlig@formdrei.de)!

You make our work easier and avoid potential problems...
...with a data transfer via file hosting services such as WeTransfer and Dropbox.
